

Fresh & Smooth

Make no Mistake There is a difference!

A family tradition for 40 years. Ours is **NOT** a pan poured or mix recipe; we use the traditional method of fudge making. Our European scratch recipe is cooked in copper kettles, then hand prepared on our marble tables to deliver a smooth, creamy, textured taste! With our expertise we can offer a consistent quality gourmet fudge that is second to none!

Made from scratch our fudge is cooked to precise levels in our copper kettle pots. Throughout the year adjustments are made to maintain perfection!

Once cooked, it is then poured onto our marble tables for the creaming process!

The creaming process with our European scratch recipe is what gives our fudge that Unmistakeable, not so sweet, gourmet quality taste!

Our Difference

Most other fudge has a very soft texture, almost like icing. It is typically very sweet and usually quite expensive. At The Fudgery, we make our fudge to a medium texture, not as sweet and priced to keep your customers satisfied and coming back year after year!
